

Sequencing and Retelling

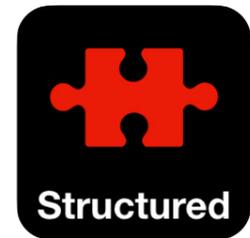

Activity

Learners sequence key events from a familiar story and retell the story in their own words.

Learners use illustrations from the story and voice recordings to demonstrate their understanding.

Learners use a Comic style book in Book Creator to present their learning.

Book Creator

Book Creator enables learners to demonstrate their learning in a range of different and creative ways, including text, images, drawings, videos and sound recordings. Learners can further enhance their creations by embedding web content (e.g. websites, YouTube videos), Google Maps, and files created in other apps (e.g. Keynote, Numbers, Pages, GarageBand, iMovie).

Preparation

Learners understand that a story is made up of key events, which happen in a particular order.

Learners are familiar with the story they are being asked to sequence and retell.

Related Ideas

- English - Writing - Creating Literature, Levels 2-4: Learners engage in imaginative retelling by creating an alternative ending or telling known stories from a different point of view.
- Learners use the Pen tool in Book Creator, or a drawing app (e.g. Tayasui Sketches School) to create their own illustrations.
- Learners use Comic style books in Book Creator to create story boards or procedural texts.
- Learners use Comic style books in Book Creator to demonstrate daily routines or expected behaviours.

Have a go.

1.	Teacher uses  to take photographs of 4-6 key illustrations from the story, in a random order.
2.	Teacher opens  and taps  . Teacher taps on the illustration images then taps on  to send photos to learners via Airdrop. Learners tap 'Accept' on the pop up menu on their iPad. (Ensure learners have 'Everyone' selected in their Airdrop settings to enable receiving.)
3.	Learners open  and tap  . Select one of the 'Comic' style templates.
4.	Tap  then tap on  . Select the number of panels to correspond with the number of illustrations.
5.	Tap  in the first panel and add the first illustration image in the sequence. Pinch and drag to resize/reposition image.
6.	Tap  then  . Tap  .
7.	Tap  to start recording. Learners record their voice telling that part of the story in their own words. Tap  to finish recording. Drag  to position sound recording on the relevant image and use blue circles to resize (hold and drag with one finger).
8.	Repeat Steps 5-7 for the rest of the illustrations.
9.	To change the background colour/pattern, tap on the page border then tap on  .
